WELCOME TO CANTERBURY

Canterbury has always been a team player. Since 1904, when we were founded by three friends in New Zealand, to producing uniforms for the ANZAC forces through World War I, to outfitting the All Blacks for over 75 years, we've always believed in the power of the team – that when we work together we can achieve more than we can as individuals.

TRIED AND TESTED

Canterbury has long understood the need to develop the toughest uniforms and kit imaginable.

Attention to detail paired with rigorous on-field testing, customer and player understanding and the highest level of durable design technologies has made Canterbury synonymous with rugby of all codes.

From birthing the iconic All Blacks kit in 1924 to partnering with the British & Irish Lions for their tours in 2016 and 2021, there is no denying the Canterbury brand is entrenched in the history of Rugby Union and League on a global scale.

Strength, passion, trust and resilience are the pillars on which Rugby has been built. They're also proudly engrained in the Canterbury philosophy.

Where tradition meets innovative design – that's when you know it's Canterbury.

YOUR TEAM, **YOUR KIT**

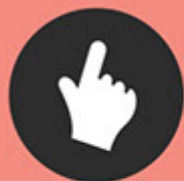

No two teams are the same: the personalities, the friendships, the celebrations. They make your team unique, and everything you do just adds layers to the legend. If you're part of a team, you're part of the family. Teams and clubs across the world rely on Canterbury to get them on the pitch each week, dressed for competition. We produce teamwear you can rely on in the toughest games and through the toughest training sessions, season after season. What's more, with kit designs customised to your team we'll make sure it's not just your performances that catches people's attention.

KIT CONSTRUCTION AND MATERIALS

Within our teamwear range products we offer either a sublimated or cut and sew option. To help you choose the best option for your team, here's what each means within Canterbury Teamwear:

SUBLIMATION

Great for a crisp, detailed print that stands out on field.

- A type of direct printing on fabric it allows for a more intricate graphic design to be applied to a garment
- Pantone specific colours relevant to your team are available which means a true to colour representation.
- When choosing sublimation for jerseys, team colours are on the outside, whereas the inner is white.

CUT & SEW

Create interest on kit through dynamic panel styling and fabric construction.

This option allows for more dynamic panelling – creating interest through the way the mesh and non-mesh fabric panels are sewn together.

- Club crests and the Canterbury logos are applied by hardwearing embroidery or printed heat transfers. Available in Canterbury standard colours.
- Fabric colours are the same inside and out.

FIT STYLES

Different teams, different players. Everyone has their own preference for how a jersey fits. To help you choose the best fit for your players we've provided a guide to help easily identify the options available & the type of fit you can expect.

TEST

- Developed for the International player
- This fit is designed to be worn tight whilst allowing flexibility, movement and comfort

ATHLETIC

- Designed for International 7's
- Streamlined fit
- Enhances tackle evasion
- A looser fit than the test jersey it allows for flexibility and movement during the game

REGULAR

- Traditional fit
- Comfortable for all sizes
- Perfect for competition, training or leisure
- Set-in or raglan sleeve finish
- A durable and comfortable jersey
- This style is great for growing junior players as it offers a more relaxed fit

CLASSIC

- Traditional looser fit
- Comfortable for all sizes
- Perfect for competition, training or leisure
- Set-in or raglan sleeve finish
- A durable and comfortable jersey

FABRIC TECHNOLOGIES

The finishes the technologies in Canterbury Teamwear garments are the same as those that have appeared on the world's biggest stages, from the Rugby World Cup to the Commonwealth Games. we don't do downgraded versions - your team can play in kit that incorporates the same innovation as that worn by some of the best in the world.

HOW TO SIZE YOUR SHIRTS /SHORTS

Make sure it's a polo shirt if you are choosing a polo or a business shirt if you are choosing a business shirt or a tee if choosing a tee.

Important Note:- Don't measure a business shirt when you are sizing for a polo or tee shirt. Why? Polos and Tees are made of knitted fabric, business shirts are made of woven fabric and have less stretch.

Try to use a similar short to the type you are ordering, e.g. compare AFL shorts with AFL shorts, basketball shorts with basketball shorts etc. **Important Note:-** When comparing garments, consider the fabric that is applied to each. For example, you will find that a cut and sew sportsmesh will have more 'give' in the fabric than a tassel short and therefore have comparatively more flexibility when worn.

When comparing with the Canterbury size chart, the leg length can be shown as either of the following:

- **INSIDE LEG LENGTH** (measurement B shown here). This is measured along the inner leg seam, from the inner crotch seam to the hem of the short

- **OUTSIDE LEG LENGTH** (measurement C shown here). This is measured along the side of the garment from the top edge of the waistband to the hem of the short.

LIONS RUGBY

The Lions are made up of the best players the UK and ROI have to offer. They've tackled the toughest, proving themselves through their performance. At Canterbury, we know what it takes to remain at the top of the game, so we needed to create a kit that could keep up. By pushing our limits as much as the Lion's do, we've improved the design and technology of our fabric so when they go through the mud, sweat and tears, we're with them all the way.

RAIONA

See page 16

TARANAKI

COUNTIES MANUKAU

The Bunnings National Provincial Championship is the backbone of rugby in New Zealand and Canterbury is proudly represented by both the Taranaki and Counties Manukau Unions. From the Unions elite men's and women's teams, through to their grassroots and development squads, our range has all levels of the game covered.

THE GRASSROOTS

EASTS RUGBY

Easts Rugby Club Brisbane is one of the largest community rugby clubs in Australia. Founded in 1947, they are primarily a sport and recreation facility for young people in the community. Catering for all ages, club teams start at under 4's all the way through to the golden oldies, including girl's and women's programmes. This vast demographic requires team kit to be hard wearing and good quality, which is exactly what we have built our business values on.

GIO NSW GLADIATORS

The Gladiator's always bring a fighting spirit to the field. Inspired by their ability to go at full force no matter what, we created a kit that's able to adapt to the game just as quickly as they can. We know that every player is different, so we tailor out kits for individual players, because when a Gladiator puts on their uniform, the battle is on.

THE GRASSROOTS

CHRIST'S COLLEGE
CANTERBURY

Each boy at his best.

CHRIST'S COLLEGE

Established in 1850, from small beginnings Christ's College has become one of the leading independent boys' schools in New Zealand. Christ's College's mission is "Each boy at his best" – and the best education teaches skills for life. Whether they excel in academic, cultural, sports or co-curricular pursuits, Christ's College boys make the most of every opportunity, aspire to achieve, and aim to make a positive difference in their community.

The school is a well-known incubator for some of New Zealand's top sportsmen, including rowers James Lassche, Hugo Elworthy and Sam Bosworth, cricketers John Wright, Peter Fulton and Tom Lowry, and All Blacks Jock Hobbs, Robbie Deans, Joe Moody and Damian McKenzie, among others. These men all got a great start at Christ's College – and, with strong sports programmes, state-of-the-art equipment and outstanding coaches, the next generation is already on the way.

HUNTERS HILL RUGBY UNION FOOTBALL CLUB

Being one of the oldest clubs in Sydney, the HHRUFC (aka the Hillies) know a thing or two about making a lasting impression. Therefore, when we partnered with them, it was crucial we created a kit that could continue to stand the test of time, making it fit for the future whilst keeping with the clubs long standing traditions. So that's exactly what we did.

MULTI-SPORT PERFORMANCE RANGE

The following pages show a range of tops we have available in the Canterbury Teamwear range. We've provided some sports we would recommend these tops for.

PREMIUM PERFORMANCE PLAYING TOPS

KEY FEATURES

Choice of performance collars

Tailored sewn on cuff with v-notch for improved fit and design

ELITE TEAMS

NEW ZEALAND BLACKCAPS

Arguably the most dynamic and exciting batting team in the world, the 2021 World Test Champions NZ BLACKCAPS know a thing or two about courage. With big hitters, fast scorers and a long batting line up, when it comes to their kit, it needs to be as dynamic and persistent as they are. We've packed in the tech, so when the 2021 World Test Champions NZ BLACKCAPS step up to bat, they've got the confidence in our gear (and their game) to come out swinging for sixes.

CREW SWEATSHIRT

Contemporary cut, our crew neck sweatshirt is a Canterbury classic. Ribbed cuff and neck lines allow for serious stretch and maximum durability, so you'll never have to take it off (well, perhaps to wash).

KEY FEATURES

- Thick 300gsm fabric weight to provide durable warmth.
- Ribbed cuff & hem for comfortable fit wear after wear.

LOGO GUIDE

There are two standard Canterbury branding styles – the “three Cs” logo, and then the same logo with “canterbury” text below. Each size of logo has a code number to identify the specific branding; the versions with the canterbury text below have the word “Lower” after the code. To the right is an image of both styles as well as sizing details for the logo codes.

Below are recommended branding sizes for using the CCC logos, although other logo sizes can be ordered provided it will fit onto the specified panels on the garment – speak to your Canterbury Sales Representative for more details.

Please note these are suggested guidelines only and all logo sizes must conform with your specific sports board regulations.

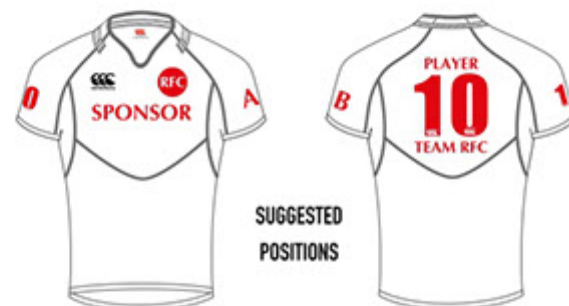

903 Lower

LOGO CODE	WIDTH	HEIGHT	USE
903 Lower	40mm	28.5mm	Caps
904 Lower	51.5mm	37mm	Training items such as tees, polos, training shorts, vests
916 Lower	65mm	46.5mm	Slim fit mens jerseys, junior jerseys, international fit jerseys playing shorts, jackets and fleeces
911 Lower	87.5mm	63mm	Standard fit mens jerseys
914 Lower	146mm	105mm	For use on back of garments as large CCC

IMAGINE THE POSSIBILITIES

A full printing and embroidery service is available for your crest, logo and player personalisation. Please see below or speak to your Canterbury sales representative for more information.

NUMBERS AVAILABLE AT 18/20CM HIGH

THERMO NUMBER OPTIONS

20cm numbers are recommended for the back of slim fit jerseys, 25cm are recommended for the back of standard fit jerseys, 5cm numbers are recommended for shorts, track pants or chest and sleeve positions. CCC is cut out so fabric behind shows through.

Names can be added across the back shoulders or as initials on the sleeve/chest. Thermo lettering is 5cm in height and available in black, navy, flag red or white. Screenprinted names are available in requested shades, however thermo is the recommended option.

Sublimated garments – numbers and names can be sublimated into any sublimated garment being made-to-order. This is at no additional cost to the garment and it is possible to request specific shades. For non standard colours please advise a Pantone (PMS) shade number. For non-standard CCC numbers please provide images of digits 0-9, for non-standard names please provide font name and file. Non-standard only available for sublimation.

EMBROIDERY

A full embroidery service is available for your crest or logo.

If the logo is already set up the electronic version (eg embroidery disc) will need to be submitted with the order, as well as a worksheet and details of colours required. Madeira thread shades must be provided, otherwise standard Canterbury colours will be used.

If the logo is not set up electronically then we will require a brand manual or high resolution logo specification sheet to set up a disc for you. ensure you explain clearly how your logo is to appear on both dark or light coloured items. The size required for the logo must also be provided. For new disc set ups an image of the disc will be forwarded to you, this will require approval before the disc will be used.

Embroideries will be sampled onto a swatch and a photograph sent electronically for approval before production is started.

PRINTING

Screenprint or thermo print services are available for your crest or sponsor logo.

Please ensure a good quality image of the logo is submitted electronically, the preferred formats are vector or high resolution eps or jpeg. Faxed paper copies, letterheads or garments are not suitable formats.

For logos with text, please provide the font name where possible. Pantone (PMS) colours must be submitted, otherwise standard Canterbury colours will be used.

Sublimated garments – crests and logos can be sublimated into any sublimated garment being made-to-order. This is at no additional cost to the garment

BADGES

We are able to apply pre-made badges to many fabrics, please ask for more details.

Please note that certain fabrics will be better suited to some application methods than others. If you are unsure of the best embellishments to use please contact your Canterbury sales representative for more information.

Please ensure that you secure permission from the appropriate party before using any logos or images, Canterbury of New Zealand Ltd can not accept any responsibility for the unauthorised use of third party logos or images. Canterbury reserve the right to refuse to apply any name or logo considered offensive or unsuitable.
